

**On this map of continents, put stickers (or make dots)
on countries where parts of your family are from:**

1. List some of the countries where parts of your family are from:
2. Choose one of the countries you listed. What is something that is *different* in that country than it is in Canada?
3. What is something that is the *same* in that country as it is in Canada?
4. What is your last name and what does it mean? (If you're unsure, why not visit <http://www.ancestry.ca/learn/facts/> to type in your name and get a bit of help?)
5. The Bible says that "God created humankind in his own image" (Genesis 1:27). That includes people from all different parts of the world. Because all people are made in God's image, how should we treat them?
